## Semi-Automatic Tabletop Pump Filler

**Table Top Pump Filler fills a variety of products and container sizes.**

### Description

The Semi-Automatic Tabletop Pump Filler is an entry level filler that will satisfy your need for a relatively low volume, low cost, user friendly, high quality filling machine. This economical pump filling machine will easily fill thin products along with high viscosity products.

The Semi-Automatic Tabletop Pump filler is ideal for filling cosmetic creams, heavy sauces, honey, gels, shampoos and conditioners, paste cleaners, and car wax.
